The Congressional Structured Settlements Caucus has been established to highlight one of Congress' great bipartisan policy successes during the past 30 years. This bipartisan Caucus is committed to help educate the Congressional community about the important role that structured settlements play in assisting injured victims to live their lives with economic security, confidence and dignity after a serious physical injury.

With the American people clamoring for common-sense solutions to serious problems, structured settlement stand out as a shining success. It is a clear-cut example of Congressional policy working as intended to protect the long-term economic security and health of accident survivors and avoid the need for public assistance.
